

BOOSTING INNOVATION

BioWin
The Health Cluster of Wallonia

BioWin is a regional health cluster open to the world which promotes a new culture of openness and partnership between academia and industry, public and private partners. Driven by innovation and business-oriented, BioWin aims to attract and retain outstanding human capital who can contribute to its development. Located in Wallonia - South of Brussels, Belgium - in the very heart of Europe, BioWin actively supports international networking and aims to become one of the key centres on the biotech/health world map.
